WORK EXPERIENCE

Software Engineer

Jan 2025 / Jan 2026

BALANCEÈ ([View website](#))

Lagos State

- Contributed across **backend engineering, product design, and growth**, supporting the development of a multi-service fintech and mobility platform.
- Backend Engineering:**
 - Integrated, tested, and validated RESTful APIs using **Java and PostgreSQL**.
 - Worked with Swagger documentation to verify endpoints, payloads, and error handling.
 - Supported USSD, wallet, and transaction service integrations with third-party providers.
- Product Design & UX:**
 - Redesigned mobile app workflows to improve usability and feature clarity.
 - Designed transactional emails, customer receipts, internal reports, and annual balance sheets.
 - Led UI/UX design for **Balanceè Wrapped 2025**, a data-driven in-app storytelling experience.
- Marketing & Business Growth:**
 - Collaborated with the marketing team to increase monthly revenue from approximately **₦6M to over ₦16M**, later peaking near **₦20M**.
 - Prepared investor updates, proposals, internal documentation, and partner onboarding materials.
- Partnerships & Strategy:**
 - Played a key role in engaging **Raven Bank** to finance Balanceè's closed-loop Credit System.
 - Supported onboarding of gas stations and repair partners through structured

documentation and proposals.

Key Impact: Helped scale Balanceè into a reliable ecosystem offering emergency services, financial services, retail, and customer support.

Web Developer & UI/UX Designer

Jun 2020 / Dec 2023

Deluxe Global Enterprise

Benin, Edo State

- Achieved a **60% growth** in monthly revenue for the company through website redesign and maintenance. Also led the development of a user-friendly UI/UX interface resulting in a **67% increase** in company profits.
- Developed and maintained various features using JavaScript, PHP, Tailwind CSS, and GitHub Version Control.
- Ensured competitive rates and seamless navigation for users, resulting in improved customer satisfaction and loyalty.

Web Developer

Jan 2019

NeverFailOil&Gas Ltd

Edo State

- Designed and launched a responsive corporate website to establish a strong digital presence.
- Implemented SEO best practices and Google Business setup, driving an estimated **60% increase in website traffic within the first month**.
- Improved brand visibility and inbound customer inquiries through performance optimization and clear service communication.

PROFESSIONAL PROJECT:

1. **REXOX Platform (2025)**

Client Website: ([view website](#))

Designed and developed a responsive business website using **HTML, CSS, Bootstrap, JavaScript, and PHP**.

Delivered a clean, scalable frontend structure to support brand launch and customer engagement.

2. **Tiano Hotel & Suites Website (2025)**

Client Website: ([view website](#))

- Designed and built the official hotel website to support online visibility and bookings.
- Improved brand credibility and customer reach through modern UI, responsive design, and performance optimization.

Multi-Client Business Websites

- Designed and developed responsive websites for service-based businesses and SMEs.
- Improved credibility, online visibility, and lead generation through clean UI and structured layouts.

3. **Balanceè USSD & Wallet Platform**

- Supported backend API integration and testing for USSD-based financial and emergency services.
- Assisted with wallet, credit, and transaction workflows used by a growing customer base.

Balanceè Wrapped 2025

- Designed an in-app, personalized year-in-review experience using customer and partner data.
 - Created personas, visual flows, and shareable assets to improve engagement and brand visibility.
4. **CreativeHub** ([View website](#))
 - Designed and built a multi-purpose platform for digital marketing, design, and programming resources using PHP, Bootstrap, jQuery, and CSS/SASS.
 - Implemented features such as secure messaging, advanced search, payments, and rating systems, with a scalable structure prepared for future backend expansion.
 5. **Project Management Dashboard** ([View website](#))
 - Developed a full-featured project management dashboard using **Next.js**, **Tailwind CSS**, **Redux Toolkit**, and **Material UI Data Grid**.
 - Integrated a **PostgreSQL-backed** system with AWS services to support scalability, performance, and modern workflow management.
 6. **Harmony2k Blog Plus** ([View website](#))
 - Built a content-driven platform combining **Blog**, **Podcast**, and **E-commerce** modules using **HTML**, **CSS**, **JavaScript**, **PHP**, and **MySQL**.
 - Designed a modern CMS dashboard with dynamic plugins to support scalability, content management, and future feature expansion.
